

HairCare Pro

This prescription is made for Harry

Recommended Wash Frequency: 1-2 times per week

Ingredients:

- Hyaluronic Acid: Look for shampoos, conditioners, and leave-in treatments containing hyaluronic acid. Apply from mid-length to ends of hair.
- Argan Oil: Use argan oil as a pre-wash treatment, a leave-in conditioner, or add a few drops to your styling product. Apply from mid-length to ends.

Tips:

- Use a gentle, sulfate-free shampoo to avoid stripping natural oils.
- Deep condition weekly with a moisturizing mask.
- Avoid hot water when washing hair, as it can further dry out your strands.
- Use a boar bristle brush to distribute natural oils from scalp to ends.
- Consider a silk or satin pillowcase to minimize friction and prevent breakage.
